

ETHICS AND RESEARCH COMMITTEE

Ref. Letter No. FMRS-EC2021-01

To : PI: Dr. Fahad Somaia
From : Dr. Talal Qadah, Chairman of Ethics and Research Committee
Date : 18/ January/ 2021
Project Title : Investigating Factors that predict Emotional Intelligence.

Dear Dr. Fahad Somaia,

On behalf of the Ethics and Research Committee members, I would like to inform you that your application for the research proposal titled as above submitted on 11th January, 2021 has been thoroughly evaluated for ethical approval. Using an online questionnaire, the project aims to investigate the contribution of demographic, social, economic and health factors on emotional intelligence.

The proposal fulfills the standards and therefore has been granted approval on the 18th January, 2021 with recommendations stated below. This approval will be used for intended study and nothing else. The approval is for 6 months duration effective from the date of this letter. You are requested to use all the data collection and consent forms as per the requirements. Also, you as P.I. must make sure that anyone assisting you in conducting any part of this project is made well aware of the policies and regulations, to ensure strict adherence to morals and ethics of research.

Recommendations

- The PI is responsible for providing the ethical committee with continuing review progress report every 3 months.
- The project may be subject to an audit or any other form of monitoring by the ethical committee.
- The PI is expected to submit the final report at the end of the study.

Yours sincerely,

Dr. Talal Qadah
 Chairman, Ethics and Research Committee
 Faculty of Medical Rehabilitation Sciences
