Dear Editor,

We are pleased to resubmit our revised manuscript titled "The effectiveness of a third-generation cognitive behavioral therapy intervention program on psychological well-being for nursing professionals" authored by Carlos Patiño, Jefferson Elizalde-Sócola y Omayck F. Valarezo-Bravo, for your further consideration at *RIP/IJP*.

We have carefully addressed all the comments and suggestions provided by the reviewers. A detailed point-by-point response to each comment has been included, outlining the revisions made to the manuscript in accordance with the feedback received. We believe these changes have significantly strengthened the quality and clarity of our manuscript.

As with the original submission, the manuscript remains unpublished, and it is not under consideration elsewhere. The order of authorship continues to reflect the contributions made to the research, and all co-authors have reviewed and approved the revised version of the manuscript. There are no conflicts of interest to disclose.

Please do not hesitate to contact me at omayck.valarezo@ce.ucn.cl should you need any further information.

Thank you for considering this revised version of our manuscript.
